

Marine Acoustics, Inc. is proud to be featured as a subcontractor for the following, “Environmental planning and engineering services for National Environmental Policy Act (NEPA) and Executive Order (EO) 12114, Environmental Effects Abroad of Major Federal Actions,” contract N62470-05-D-6201. For more information, please call the MAI Contracts Dept. at 401-847-7508.

STATEMENT OF WORK

The work to be performed provides preparation of documents including Categorical Exclusions (CATEX), Environmental Assessments (EA) and Environmental Impact Statements (EIS) under NEPA, as well as Environmental Reviews and Environmental Studies under EO 12114. The preponderance of work to be assigned under this contract will be NEPA documentation in support of proposed infrastructure-related actions. Some examples of taskings could include home basing of aircraft, home basing of ships, new construction, renovation, and Base Realignment and Closure (BRAC) actions and demolitions. Work will be performed in the Naval Facilities Engineering Command Atlantic area of responsibility, including the continental United States (the adjacent waters of the Atlantic and Pacific oceans), the Caribbean, Europe and North Africa. Work is expected to be completed in August 2006 (August 2010 with options).

The documents to be prepared under this contract include: Categorical Exclusions (CATEX), Environmental Assessments (EA) and Environmental Impact Statements (EIS) under NEPA, as well as Environmental Reviews and Environmental Studies under EO 12114. The preponderance of work to be assigned under this contract will be NEPA documentation in support of proposed infrastructure-related actions. However, other tasks may be assigned.

Some examples of taskings could include home basing of aircraft, home basing of ships, new construction, renovation, and Base Realignment and Closure (BRAC) actions and demolitions. General guidelines for preparation of the NEPA documentation are contained in the Council on Environmental Quality (CEQ) Regulations (40 CFR part 1500 et. seq.) and Navy Instructions as published, 32 CFR Part 775 and OPNAVINST 5090.1B. Guidance for preparing EO 12114 documents is contained in OPNAVINST 5090.1B, Appendix E.

In order to complete these documents, some of the following related studies and services may be required:

- (1) Air Conformity Analyses under the Clean Air Act;
- (2) Wetland delineation and mitigation plans;
- (3) Cultural resource surveys (both architectural and archeological);
- (4) Coastal Zone Management consistency determinations;
- (5) Endangered Species Act Section 7 Consultations, Biologic Surveys and Biological Assessments;
- (6) Community Impact Studies;
- (7) Environmental Justice Analyses;

- (8) Traffic Studies;
- (9) Water quality studies to include chemical and physical analysis of dredge material and bioassays;
- (10) Storm Water Management Studies;
- (11) Noise impact studies;
- (12) Toxic and hazardous waste studies;
- (13) Public Involvement Strategies;
- (14) Life Cycle Cost Analyses;
- (15) Land Use Compatibility (LUC) Plans;
- (16) Natural Resources Surveys;
- (17) Translation services for CATEX/EA/EIS and Public Notices;
- (18) Range hazard analysis;
- (19) At-sea acoustic analysis;
- (20) Marine Resource Assessments;
- (21) Marine Mammal Density estimates
- (22) Letters of Authorization and Incidental Harassment Authorizations; and
- (23) Essential Fish Habitat Assessments.
